Antitrust Library titles

This book will aid business executives and operating managers as well as lawyers in understanding the Robinson-Patman Act and identifying issues that require more in-depth consideration.

A Primer on the Law of Joint Purchasing

The Section of Antitrust Law of the American Bar Association has developed this general guide to the law of joint purchasing to aid non-antitrust lawyers’ and business managers’ understanding of when and how the antitrust laws apply to group purchasing arrangements. It is written primarily to help businesspersons to understand the risks and comply with the law. This primer is not a substitute for legal advice but, rather, is offered as background to help spot issues so that advice may be sought from an experienced attorney.

Advertising Claim Substantiation Handbook

The purpose of this handbook is to provide legal practitioners with an introduction to the law, principles and challenges of claim substantiation.

Agriculture and Food Handbook

The Agriculture and Food Handbook provides a comprehensive review of the regulatory, antitrust, and consumer protection issues that arise in these industries.

An Antitrust Guide for Trade Association Professionals and Members

This guide helps association professionals and members identify the antitrust issues that typical association activities may present and offers general practical guidance for conducting association activities.

Antitrust and Associations Handbook

The Section of Antitrust Law of the American Bar Association presents the Antitrust and Associations Handbook. This Handbook updates and substantially expands upon the Section's antitrust practice guide, published in 1996, entitled Antitrust & Trade Associations: How Trade Regulation Laws Apply to Trade and Professional Associations.

Antitrust Class Actions Handbook

This second edition of the Antitrust Class Actions Handbook is a vital reference for both new and experienced antitrust practitioners navigating the class action thicket.

Antitrust Health Care Handbook, Fourth Edition

Antitrust and Healthcare, Fourth Edition collects the application of antitrust principles and doctrines to healthcare industries in a concise, single-volume format. In the years since the publication of the third edition in 2004, antitrust law has continued to develop in the healthcare sector. This edition nearly doubles the coverage of the third edition, and includes discussions of In re Evanston Northwestern Healthcare and Cascade Health Solutions v. PeaceHealth decisions, as well as business in FTC advisory opinions and several other court decisions issued since 2004. The Handbook begins with overviews of basic antitrust principles and concepts, explained largely through the antitrust decisions arising out of the healthcare sector. Then it provides in-depth coverage of relevant markets in healthcare industries, pricing conduct in healthcare industries, and nonprice conduct in healthcare industries. It concludes with a practical section on preventing and minimizing antitrust problems. Written by practitioners specializing in healthcare antitrust, Antitrust and Healthcare, Fourth Edition is a valuable reference tool for antitrust and non-antitrust practitioners alike in advising their healthcare clients.

Antitrust Issues in International Intellectual Property Licensing Transactions

This book provides a review of the application of the antitrust and competition laws of nineteen leading jurisdictions around the world to common issues arising in patent, copyright, and trademark licensing agreements.
